## EDUCATION

**Universidad Tecnológica de Chihuahua**  
Multiplatform Software Development Higher Technician

**Chihuahua, CUU**  
2022 - Now

## PROJECTS

**Bicycle Retailer Web Solution: Products and Staff Control Panel** **PHP & MySQL**  
Designed and built the web application for León Bicicletas, featuring a robust system for managing both products and employees. The platform streamlines inventory control and staff management while also providing an intuitive quotation tool to enhance customer interaction. Serves as a centralized hub for León Bicicletas to efficiently access product information, generate quotations, and control operations.

**Chihuahua Commerce Showcase: MexiSpotlight Web App** **PHP, MySQL & JavaScript**  
Developed MexiSpotlight, a dynamic web application dedicated to showcasing businesses in Chihuahua. This platform allows users to explore and rate local establishments, leveraging geolocation APIs to display precise locations and mailing API for contact purposes and newsletter subscriptions. MexiSpotlight serves as a comprehensive directory, enhancing community engagement.
